

A transparent token framework for industrial innovation

EDG supports the Engineering Drawing ecosystem: AI-assisted industrial design, engineering workflows, and a community focused on more efficient process systems.

Network	Token supply	Token contract
BNB Smart Chain (Chain ID 56)	99,999,999 EDG 18 decimals	0xa90Cc0137FDA4285Eaa6da0f7a5118A1432b2a76

Completed on-chain lock: 39,999,999.60 EDG, equal to 40% of the fixed supply, is locked for the Environment Program and Team & Management allocations.

Version 2.0 records the fixed-date lock transactions completed on 22 September 2026. This document is informational only; it is not investment advice, an offer, or a promise of value.

EDG at a glance

Engineering Drawing develops tools and workflows for industrial process design. EDG is intended to support access, participation, and ecosystem activity around the platform. The token does not represent equity, ownership, or a claim on company revenue.

On-chain records are the source of truth for token balances, transfers, lock status, and unlock conditions. Users should independently verify contract activity before acting.

Official contracts

Resource	Address / link	Purpose
EDG token	bscscan.com/token/0xa90Cc0137FDA4285Eaa6da0f7a5118A1432b2a76	Fixed-supply BEP-20 token
Presale contract	bscscan.com/address/0x944483c8083827A8BF09c12cFC57DB6a5b22697A	Presale contract reference
Lock provider	bscscan.com/address/0x407993575c91ce7643a4d4cCACc9A98c36eE1BBE	PinkLock contract used for the disclosed locks

Presale stages

Stage	Allocation	Indicative price
Stage 1	5% of supply	0.02 USDT per EDG
Stage 2	10% of supply	0.03 USDT per EDG
Stage 3	15% of supply	0.05 USDT per EDG

The site publishes the official contract references, presale stages, and allocation model. Any future allocation or lock change should be accompanied by a public update and the relevant on-chain transaction reference.

Allocation and completed locks

EDG has a fixed supply of 99,999,999 tokens. The Environment and Team allocations are locked in six separate fixed-date records, rather than daily or continuous vesting.

Allocation	Share	Supply amount	Status
Community Development / Presale	30%	29,999,999.70 EDG	Presale allocation
Environment Program	25%	24,999,999.75 EDG	Locked in three records
Team & Management	15%	14,999,999.85 EDG	Locked in three records
Marketing & Promotion	10%	9,999,999.90 EDG	Not part of these locks
Liquidity & Risk Management	20%	19,999,999.80 EDG	Not part of these locks

Locked total: 39,999,999.60 EDG. The locks use the confirmed admin wallet as owner and beneficiary.

Lock	Amount	Unlock at 00:00 UTC
Environment - Year 1	9,999,999.90 EDG	21 August 2027
Environment - Year 2	9,999,999.90 EDG	21 August 2028
Environment - Year 3	4,999,999.95 EDG	21 August 2029
Team - Year 1	4,999,999.95 EDG	21 August 2027
Team - Year 2	4,999,999.95 EDG	21 August 2028
Team - Year 3	4,999,999.95 EDG	21 August 2029

The schedule preserves the stated 10%, 10%, 5% Environment pattern and 5%, 5%, 5% Team pattern, measured as percentages of total supply. No tokens from these records are available before their respective dates.

Verification, utility, and risk

Verification references

The six lock transactions completed on 22 September 2026. The final Team Year 3 transaction is bscscan.com/tx/0x02397fae3eb10c4cf1584b483fa6bf25746e4415da6e35000c19f5349f7ef245. PinkLock and BscScan are the authoritative sources for each lock owner, amount, and unlock timestamp.

Intended ecosystem utility

Engineering Drawing intends to use EDG in connection with platform access, ecosystem participation, community programs, and product capabilities that may be introduced over time. Availability and eligibility are subject to the live product, applicable law, and published terms. EDG does not grant ownership rights, voting rights, dividends, or a guaranteed return.

Risk disclosure

Digital assets involve substantial risk. Prices, liquidity, regulation, taxes, smart-contract behavior, third-party services, and wallet security can change. Transactions are generally irreversible. Never share a seed phrase or private key, and independently verify the purpose of any address before sending assets.
